MADE IN EUROPE

We bring you floors that are exclusively manufactured in Europe, in accordance with European standards and quality control measures. Our floors with unmatched resilience & unique properties are definitely a long lasting investment.

AUTHENTIC SURFACE FINISH

Have you seen & felt the real wooden-like textures and effects on the surface our floors? We pay extra attention to import floors with a top finish, to gift you an authentic experience. **Running your hand on these surfaces will make you feel the cracks, knots, pores & marks of a real wooden plank! You may find a number of products in the market but you will never find this kind of genuine wood-feel from any cheap alternatives.**

Anti Static

Our floors are anti-static for the entirety of its life! This means that there is complete protection against unpleasant electric shock loads, zero problems with usage of equipment, and the floors attract very minimal dust and dirt!

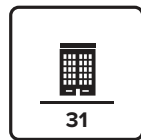

Private use

Commercial use

Abrasion
resistance

Use

Classification

Every floor is customised for particular uses - some floors work best inside private spaces like homes but some are more resilient & can be effectively used inside hotels and restaurants. Understanding the correct wear class when selecting a floor is of utmost importance!

Moisture Guard

Check for the 'moisture guard' icon, which is an indicator that the floor is moisture resistant, and can ideally perform even when surrounded by humid or wet conditions!

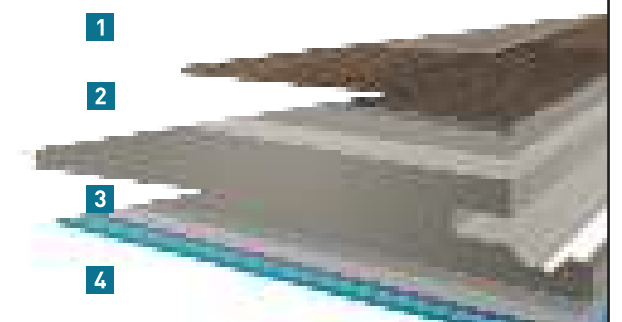

A.B.C. Anti Bacterial Coating

Bringing optimal protection with the Anti Bacterial Coating (ABC), our floors are 100% germ-free and completely safe for your children. It is perfectly alright for your kids to crawl & play on these floors without any risk of contracting allergies or illnesses!

Structure

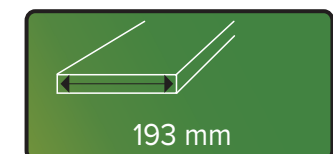

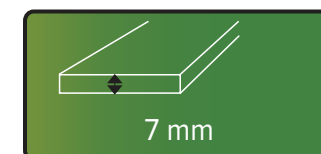

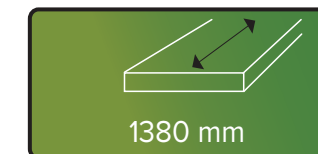

- 1 overlay
- 2 decor paper
- 3 HDF
- 4 backing
